The public will be able to see this page once I post on the main UIC page. Right now, no, the public cannot see this page.

Let me find out what happened to the RTC.

Subject: RE: final RTC doc

The numbering in the RTC copy on the website is still incorrect as the previous version.

Also, will the public be able to navigate to this page from our main R8 UIC webpage?

Sweet.

Can someone resend as a pdf copy? When I opened Valois' Sharepoint version it still showed the wrong numbering.

It looks like something went wrong with the numbering of comments starting on page 389. The comment numbering erroneously begins with #70 for response #368 and continues to comment #88 for response #386 on page 398.

Can someone take a look to determine how long this will take to correct please?

I don't need to review further. I would say that the RTC captures all the substantive comments. However, PT apparently felt the need to provide us edits as well. So, we are attaching the appendices because we want to show them how we responded to all the other comments that were not captured in the RTC. We don't think they're significant though, if that helps.

Valois: is it fair to say that the RTC summarizes all comments and our responses to them and that the Appendix just provides more detail and/or background on Powertech's comments and our responses? I am just want to be sure I understand how the Appendix relates to the RTC.

Omar: if no one has further input, please make a non-Sharepoint copy of the RTC and upload it to our website.

Let's plan to go live once we have posted the EJA.

Subject: final RTC doc

I saved the RTC as the smaller-sized version. It is now 7.1M.

I think we are good to go on this one. I will finish up the EJA next.
